DataMind AI Platform - FAQ (v1.2)

Q1: Does DataMind store user data?

Yes, but only metadata such as timestamp, session ID, and token count. Content data is not stored.

Q2: Can I use DataMind offline?

No. The platform requires a cloud connection to process queries and generate results.

Q3: Does DataMind support the Polish language?

Partially. Version 1.2 improves UI translations, but Polish text generation remains in beta.

Q4: Can I train my own model on DataMind data?

No. User data is not available for fine-tuning. However, you can send context using the API parameter `context_data`.

Q5: What are the free plan limits?

50 queries per day, up to 2k tokens per query, and no API access.

Q6: Does DataMind integrate with LangChain?

Yes, via the official plugin `datamind-langchain`, available only in the Pro plan.
